

SKIMMER FOR FLOATING-OIL

CNC SPECIAL FOR CNC MACHINE

MODEL

NC-40

DESCRIPTION

The Belt Oil Skimmer is widely used in CNC machine tool and processing center. It can separate the floating oil and grease from the water agent and emulsion. This process can extend the time of change the liquid, and extend the life of cutter, which will improve the machining accuracy.

WORKING PRINCIPLE

The oil skimmer is using the different weight surface tension of water and oil and water. It will absorb and take away the floating oil and grease in the surface.

SKIMMER FOR FLOATING-OIL

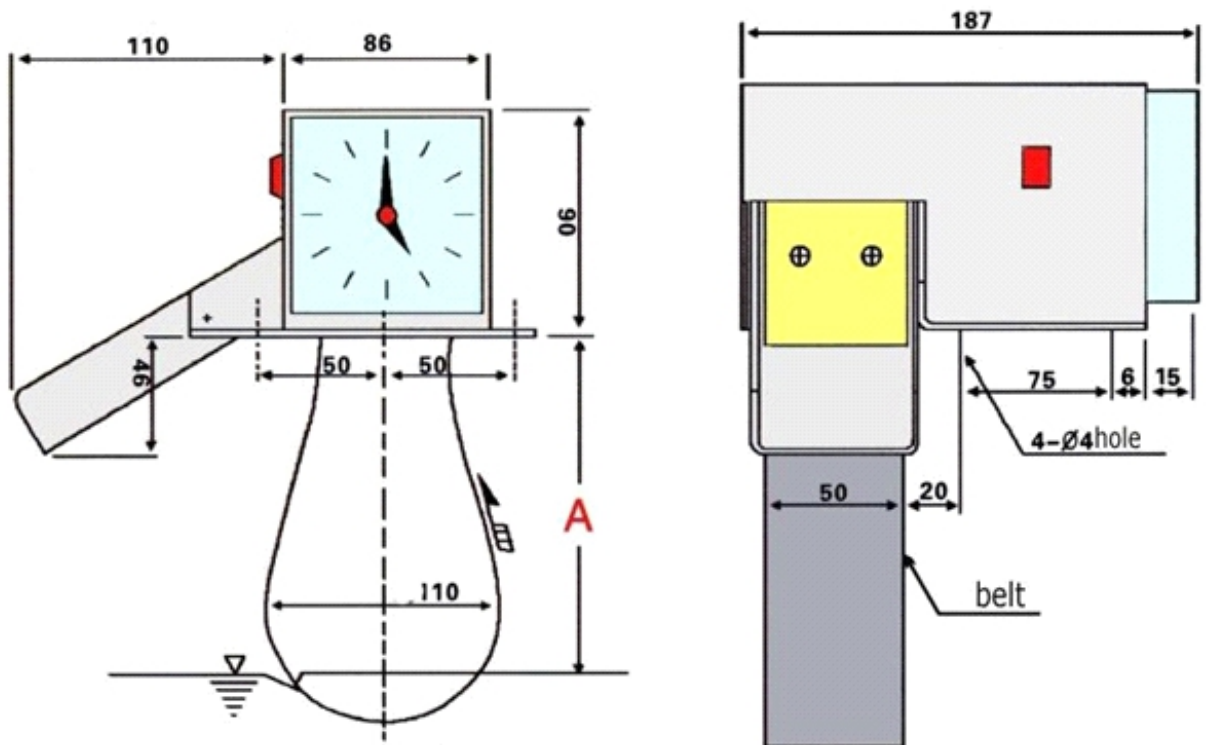

SPECIFICATION

Model No.	NC-40
Suction capacity	2L/Hr
Belt Width	50mm
Power	10w
Voltage	220v AC 50Hz
Weight	2kg

APPLICATION PHOTO

DIMENSION DRAWING

- Customer provide the dimension “A” in order to design to steel belt length for manufacture
